

THRUXTON

MOTORSPORT CENTRE

Thruxton Kart Club

Our aim

Any person of any experience will be able to join the club, it is proposed that the club runs once every 6 weeks and will provide a platform for young drivers of all experiences to discover the joys of karting within a safe, supervised and strictly controlled environment.

Experienced drivers will be able to hone their driving skills and also be involved in the induction of novice drivers to the club, using many proven techniques developed by the instructional team all drivers will establish themselves as confident proven drivers who will quickly earn the respect of anyone with experience of race craft.

Novice drivers will benefit from working with our Junior Cadet Club team who specialise in developing the fundamental skills needed to drive with confidence and awareness of the racing environment.

Club members will be issued with a membership card, which must be produced at every club session.

The Thruxton Kart Club will provide a wealth of experience for all to enjoy, even parents planning to go into karting (MSA Level) can benefit as we plan to have visits by experienced kart racers and mechanics who will be able to give guidance on set-ups, kart purchase etc.

The Kart Club will provide the support needed for young drivers and parents alike making those first steps into motorsport, it will also supply those not quite so serious young racers with a regular platform for developing their skills on a recognised NKRA Circuit.

Or for just having a fun morning out with great people, who know who to teach karting to youngsters, come and join us at the Thruxton Kart Club.

Each session will start at 09.30hrs until 12.00hrs

The cost £45.00 per head inc. VAT

Format will be decided on the day and will be subject to total number in group.
